

# HOW TO MEASURE YOUR BUCKET

**A** = The distance from the inside left side of the bucket (side 2) to the inside right side of the bucket (side 4).

**B** = The distance from the inside of the mount side of the bucket (side 1) to the inside of the front side of the bucket (side 3).

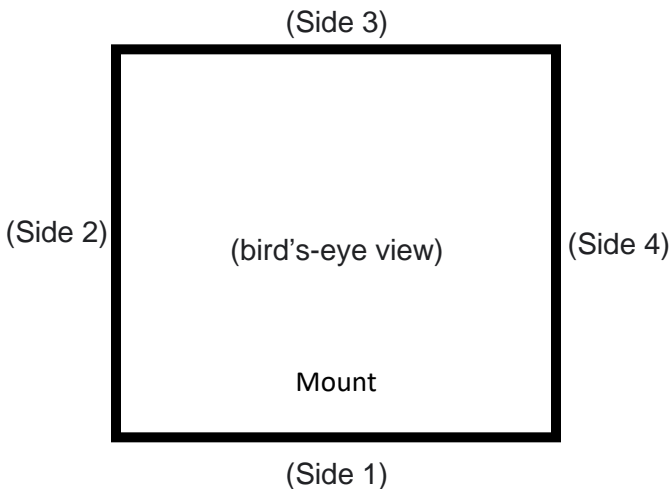

**C** = The distance from the inside bottom of the bucket to the top of the lip.

**D** = The distance between the inside of the mounting ribs.

**E** = The distance from the top lip of the bucket break point of the mounting rib.

**F** = The depth of the notch between the mounting ribs.

\*If your bucket is not rib mounted, please add mount type in message area.

**A** = \_\_\_\_\_

**B** = \_\_\_\_\_

**C** = \_\_\_\_\_

**D** = \_\_\_\_\_

**E** = \_\_\_\_\_

**F** = \_\_\_\_\_

**Step Side:** \_\_\_\_\_

**Control Side:** \_\_\_\_\_
